ABOUT THIS WINERY

In our vineyard we produce organic wines with great pride in the name of tradition and innovation. We are able to preserve in our wines all the natural characteristics given by the earth, the climate and the sun typical of our Apulia. To do this, however, we do not give up innovation; in fact, in our winery we produce our wine with technologically advanced activities, opening ourselves to experimentation and research in order to give our organic Apulian wine a unique distinguishing feature
