ABOUT THIS WINERY

Paniza is an aragonese winery, located in the Protected Designation of Origin Cariñena, in the south of the province of Zaragoza and at the foot of the Iberian System, an excellent region for the creation of wines thanks to its special climate and century-old vineyards.

PRODUCT NOTES

After destemming and crushing, fermentation lasts 15 days. The fermentation is temperature controlled in stainless steel, with various pump-overs each day. The wine undergoes malolactic fermentation, followed by six months of ageing in medium-high toasted French oak. Once bottled, the wine continues to age in our cellars.
